## CORE BELIEFS

### We believe that...

- ◆ Professional development should be sustained and supported over time.
- ◆ Effective teachers are life-long learners.
- ◆ Professional development supports and encourages greater effectiveness that can lead to improved student learning.
- ◆ Technology can, and should be used to enhance and extend student learning and achievement.
- ◆ All educators should be given the opportunity to acquire current strategies and practice in education.

## TEACHER CENTER MISSION

To promote professionalism throughout the region developing competent and confident educators by:

- providing the knowledge, skills and support necessary to grow as decision makers
- increasing and enhancing communication
- creating opportunities for collaboration with each other and our communities
- strengthening support and assessment systems through continuous improvement and staff development activities

## EXPECTED PROGRAM OUTCOMES

1. Educators will network with peers to discuss instructional strategies, share expertise, gather information and formulate/explore new roles.
2. Participants will apply strategies, skills and techniques in a learning environment.
3. Participants will incorporate tools/strategies and varied assessment techniques that target higher level thought processes.
4. Participants will use technology as an instructional tool and promote the understanding and acquisition of technology as an instructional tool.
5. Educational community members will practice effective communication skills and strategies that will enhance the collaborative relationships within our communities.
6. Educational personnel will learn new skills and discuss various strategies focused on working with students with special needs.
